For more energy. Against muscle soreness & co.

When you are hiking, riding a bike, skiing, or doing any other activity, you are doing your body a favor. If only it weren't for that fatigue afterwards, that accompanies you through the rest of the day and evening! Not to mention the pain and soreness of the muscles, tendons, and joints. There should be something for that. There is! - Even here in this hotel!

The TERRA MEDICO REGENERATIVE SYSTEM

You don't have to live with muscle soreness, pain, and a lack of energy after your work-out. The TERRA MEDICO REGENERATIVE SYSTEM refuels your energy in a natural way and regenerates your body. Muscle soreness and other problems vanish or do not even present themselves.

*Thanks for being here,
your host and the TERRA Medico Team*

Rent and recharge – it's simple

Ask your receptionist for the TERRA MEDICO REGENERATIVE SYSTEM. Your hotel might have a special room for its application. Or you can rent it for the day and use it in your room. Simply extract the topper from the bag, put in on your bed or couch and lay down on it. The healing laws of nature work on their own. You don't have to do anything!
